## Birdville ISD Teachers Receive NTE STEM Related Grants

The Birdville Education Foundation has been hard at work selecting specific teachers to receive STEM related grants. This is in association with the North Tarrant Express grant that was given to the Birdville Education Foundation for the purpose of STEM-related education.

Most recently, teachers at North Richland Middle School were surprised with big checks at a school board meeting. First, Kelly de Leon was awarded a \$4,117.96 for her STEM Robots program. Second, Samantha Taylor received a check for \$4,749.05 for a program called, "It's Time to Change the Equation of Learning."

## I-35W Construction Activities and Closures

We are hard at work building better roads and highways for North Texas. In fact, the section of I-35W between I-820 and U.S. 81/287 is nearing completion! As we continue construction to complete the I-35W corridor, the following entrance and exit ramps along I-35W are closed for an extended period of time:

- On-ramps to southbound I-35W from Weatherford Street and Gilvin Street (June 2017)
- Off-ramp from southbound I-35W to westbound Spur 280 (June 2017)
- Northbound I-35W off-ramp to Meacham Boulevard (through July 2017)
- Northbound I-35W on-ramp at Northside Drive/Yucca Avenue (through July 2017)

Subscribing to the NTE [e-alerts](#) and checking the [website](#) for updated closure and detour announcements are two easy ways to stay on top of upcoming construction activities and areas that may have delays.

Construction footage is also available on the North Tarrant Express [YouTube channel](#), as well as aerial images on the project website.

## Legislative Update

The 85th session of the Texas Legislature adjourned recently, but not without high drama, unfinished business and the threat of a Special Session. Representatives of NTE Mobility Partners and LBJ Infrastructure Group spent time during the session meeting with members of the Texas Legislature sharing with them the success of the North Tarrant Express and LBJ Express corridors in providing congestion relief, higher speeds and shorter travel times. NTEMP and LBJIG continue to work with TxDOT and North Texas leaders and stakeholders to complete the expansion of 35W from downtown Fort Worth north into the Alliance corridor, and connect other TEXpress Lanes throughout the region.

## Know Before You Go!

We encourage drivers to check for up-to-the-minute information on lane closures and traffic detours on our [Facebook](#) and [Twitter](#) accounts.

We also post information about major accidents and delays, which can help keep you on track when traveling along I-35W or the North Tarrant Express corridor along Loop 820 and Airport Freeway or LBJ Express.

Be sure to "Know Before You Go!" You can find a complete list of current NTE lane closures on I-35W [here](#) along with alternate route maps [here](#).
